

Name: Chloe Davis

Email: chloe.davis.ml@email.com

Summary: Machine Learning Engineer with 3 years of experience focusing on NLP and predictive modeling. Skilled in Python, PyTorch, and deploying models in cloud environments. Eager to transition deeper into Generative AI development, leveraging a strong foundation in deep learning.

Skills: Python, PyTorch, Scikit-learn, Pandas, NumPy, NLP, Deep Learning, Machine Learning, SQL, AWS (EC2, S3, basic SageMaker), Git, Docker, Flask (basic API dev).

Experience:

Machine Learning Engineer, Quantum Analytics (2021-Present)

- Developed NLP models for text classification and topic modeling using PyTorch and Scikit-learn.
- Built data processing pipelines for cleaning and preparing text data.
- Deployed models as REST APIs using Flask and Docker on AWS EC2.
- Explored transfer learning techniques for NLP tasks.

Data Science Intern, Finance Hub (Summer 2020)

- Performed data analysis and built predictive models using Python and Scikit-learn.

Education:

M.S. in Data Science, Carnegie Mellon University (2021)

B.S. in Statistics, University of Washington (2019)
